& Research Society of Chinese-foreign Cooperation in Running Schools (in preparation) of China Association of Higher Education

Organized by: Zhongyuan University of Technology

The 7th Annual Conference on Chinese-Foreign Cooperation in Running Schools

November 20 -22, 2016, Zhengzhou, China

Invitation Letter (Pre-notice)

Dear Sir/ Madam,

We are pleased to invite you to participate in the 7th Annual Conference on Chinese-foreign Cooperation in Running Schools (CFCRS).

In April of 2016, General Office of the Communist Party of China and General Office of the State Council of the People's Republic of China issued *Opinions on how the Opening-up in Education should be Done during the New Period*, which covers its guidelines, principles, targets, key tasks and assurance measures. It points out “Opening-up in education is a crucial part in national reforms and openings, therefore it should serve our national strategy by integrating the international and national resources. It is supposed to serve the strategies like the strategy of ‘One Belt and One Road’, the strategy of innovation-driven development, the strategy of developing the country through science and education and the strategy of reinvigorating China through human resource development. CFCRS is an important part of opening-up in education. 2413 CFCRS institutes and programs have been approved and set up in China so far. It is our responsibility to develop theoretical

researches in CFCRS in order to help policy-makers. The 7th annual conference will be held accordingly.

Supported by International Cooperation and Exchange Department of MOE, Xiamen University's Research Center on Chinese-Foreign Cooperation in Running Schools has co-worked with some provincial education departments and some universities to hold annual conference on CFCRS for 7 years in a row. Leaders from MOE of China pays great attention to this platform by requiring it to make further researches on quality development for several years and focus on issues like quantity and benefits. The annual conference has been providing a high-level platform for government, scholars, university presidents who are interested in CFCRS to exchange experiences and ideas. It will help push cooperation, train research and administrative staff, lead the media direction and support the sustainable and systematic development of CFCRS.

We are firmly convinced that with your support and participation we will be able to successfully hold this annual conference and make full use of it to enhance internationalization level of Chinese education and promote functions of cooperative institutions and programs.

Leaders of MOE of China, International Cooperation and Exchange Department of MOE, China Academic Degrees & Graduate Education Development Center, Chinese Service Center for Scholarly Exchange, China Education Association for International Exchange, China Association of Higher Education, People's Daily, some provincial governments, provincial education departments and some universities at both home and abroad will attend the conference.
